Title

- 1 5,748,961 **T** Efficient method and apparatus for compiling and linking modules of computer code in a large software system
- 2 5,748,958 **T** System for utilizing batch requests to present membership changes to process groups
- 3 5,748,896 **T** Remote network administration methods and apparatus
- 4 5,743,567 **T** Integral printed sheet products
- 5 5,740,444 **T** Symbol browsing in an object-oriented development system
- 6 5,736,063 **T** Non-azeotropic refrigerant compositions containing carbon dioxide
- 7 5,734,907 **T** Method of programming an information processing device for network management applications using generic programming
- 8 5,732,257 **T** Object conversion method from a flat object space to a class structured space
- 9 5,724,525 **T** System and method for remotely selecting subscribers and controlling messages to subscribers in a cable television system
- 10 5,715,381 **T** Method of creating and managing packages, including multiple documents, in a printing system
- 11 5,706,501 **T** Apparatus and method for managing resources in a network combining operations with name resolution functions
- 12 5,706,406 **T** Architecture for an artificial agent that reasons defeasibly
- 13 5,704,032 **T** Method for group leader recovery in a distributed computing environment
- 14 5,699,501 **T** System for group leader recovery in a distributed computing environment
- 15 5,696,962 **T** Method for computerized information retrieval using shallow linguistic analysis
- 16 5,696,961 **T** Multiple database access server for application programs
- 17 5,696,896 **T** Program product for group leader recovery in a distributed computing environment
- 18 5,694,595 **T** Remote user profile management administration in a computer network
- 19 5,689,709 **T** Method and system for invoking methods of an object
- 20 5,689,702 **T** Flexible data structure layout for data structure including bit-field data members
- 21 5,689,669 **T** Graphical user interface for navigating between levels displaying hallway and room

metaphors

- 22 5,689,431 **T** Golf course yardage and information system
- 23 5,668,877 **T** Method and apparatus for stepping pair keys in a key-management scheme
- 24 5,668,640 **T** Facsimile equipment
- 25 5,651,676 **T** Method of organizing and storing simulated scenery in a flight simulation system
- 26 5,638,494 **T** Adaptive communication system
- 27 5,634,114 **T** Dynamic link library version negotiation
- 28 5,634,011 **T** Distributed management communications network
- 29 5,633,933 **T** Method and apparatus for a key-management scheme for internet protocols
- 30 5,625,763 **T** Method and apparatus for automatically generating focus ordering in a dialog on a computer system
- 31 5,613,120 **T** System and method for enabling, without recompilation, modification of class definitions and implementations in an object-oriented computer program
- 32 5,604,849 **T** Overlay management system and method
- 33 5,600,827 **T** Data management, display, and retrieval system for a hierarchical collection
- 34 5,594,782 **T** Multiple mode personal wireless communications system
- 35 5,588,060 **T** Method and apparatus for a key-management scheme for internet protocols
- 36 5,572,582 **T** Method and apparatus for establishing communication between two teleconferencing endpoints
- 37 5,564,119 **T** System and method for storing and managing information 5418942
- 38 5,559,934 **T** Label printing apparatus and wordprocessor
- 39 5,557,730 **T** Symbol browsing and filter switches in an object-oriented development system
- 40 5,548,646 **T** System for signatureless transmission and reception of data packets between computer networks
- 41 5,548,524 **T** Expression promotion for hierarchical netlisting
- 42 5,544,236 **T** Access to unsubscribed features
- 43 5,544,044 **T** Method for evaluation of health-care quality
- 44 5,539,530 **T** Facsimile machine with custom operational parameters
- 45 5,530,913 **T** Message-delivery improvement for data communications system using single frequency reuse networks
- 46 5,530,849 **T** Method of reading dynamic, hierarchical file system directories
- 47 5,528,701 **T** Trie based method for indexing handwritten databases
- 48 5,528,508 **T** System and method for verifying a hierarchical circuit design
- 49 5,523,942 **T** Design grid for inputting insurance and investment product information in a computer system
- 50 5,523,759 **T** In flight doppler weather radar wind shear detection system
